## Mobile Apps

Easy to use mobile apps from Alarm.com help you get more from your security system. Now it's simple to be in control, get alerts, manage your energy and watch video in the palm of your hand.

### Easy access

Intuitively designed mobile interfaces make it easy to interact with your security system.

### Instant awareness

Real-time alerts are delivered right to your mobile device when activity takes place at your property.

### Remote control

Arm your system or turn off the lights from your phone instead of having to return home if you forget.

*Note: App functionality varies depending on service plans.*
