Mobile Apps | Geo-Services

Mobile Apps

Easy to use mobile apps from Alarm.com help you get more from your security system. Now it's simple to be in control, get alerts, manage your energy and watch video in the palm of your hand.

Easy access

Intuitively designed mobile interfaces make it easy to interact with your security system.

Instant awareness

Real-time alerts are delivered right to your mobile device when activity takes place at your property.

Remote control

Arm your system or turn off the lights from your phone instead of having to return home if you forget.

Note: App functionality varies depending on service plans.

100 Security Camera Project

Completed by Nov. 2014

Network Cabling Dept.

Network Cabling Dept.

Police Body Camera

1st Generation

Casing

- Adapt High-strength engineering plastics
- 100.1(L) x 63.3(W) x 29.9(H) mm

Built-in Camera

- 5.0 Megapixel CMOS Sensor, 12.0 Megapixel

TFT LCD Monitor

- 2" high definition TFT LCD Screen

Built-in PVR (Portable Video Recorder)

- Video format: Standard H.264, MP4 format
- Max.32G TF card • Date & time stamp

Rechargeable Li-battery, 3.7v 2600mA,
Continuous recording time: 1920*1080@30fps,
up to 4-5 hours

2nd Generation: Will be ready 1st Quarter 2015

Integrate with 4G LTE

Once gun is released from holster, it will trigger **4G LTE**
and send real-time image to Command Center

- Tightly-integrated Intrusion Prevention System (IPS)
Buffering + Encryption
- 4G LTE Module
- Release Switch with Battery Pack

System Structure

- ◆ Speed enforcement and red light enforcement without Loop: speed radar + tracking radar + image detector
 - ◆ Using two radars can increase accuracy of enforcement.
 - ◆ Using photos and video and 100% restore contrary situation.

System Structure

Near Dongda Rd.
and Tianfu Rd.,
Hsingchu City
